

Under certain conditions, which will be furnished on application, a variety of Shade Trees will be offered free of charge to parties agreeing to plant properly along the highways, under the provisions of the "Ontario Tree Planting Act of 1883." This offer is good only for the Spring of 1886. Write at once for particulars.

ALLEN MOYER,
P. O. Box 696, St. Catharines, Ont.

CONDITIONS REFERRED TO IN ABOVE CIRCULAR.

1. Trees to be furnished for planting only in Municipalities approved of by the undersigned, and which have passed By-laws (1) under above Act and especially Sections 5 and 10 thereof, and granting bonuses of not less than 25 cents per tree; (2) for preventing cattle and other animals running at large in such Municipalities.

2. Trees to be delivered at Jordan Station of Grand Trunk Railway. Applicants to pay freight.

3. All planting to be done by applicants not later than 1st June, 1886; trees to be mulched with at least one bushel of sawdust or equivalent of straw manure, to be placed at least 30 feet apart, not less than 50 trees adjacent to one farm, or less than 500 in one neighborhood. All trees to be cut back to a height of 7 feet from the level of surrounding ground.

4. All bonuses payable under the provisions of above Act and By-Laws to be assigned to and become the property of the undersigned.

5. In the case of towns and villages negotiations made with only one party, who shall satisfactorily guarantee compliance with the Act and above conditions and payment of bonus after inspection.

ADVANTAGES OF THIS PLAN.

1. It will put a BETTER CLASS OF TREES on our highways, in every way, than if gathered in the bush, grown in the shade and with poor roots.

2. It will be LESS EXPENSIVE, as it will need no cash for trees nor time to hunt them. "Time is money."

3. It will KEEP THE CATTLE OFF THE HIGHWAYS only where the trees are planted, and without the farmer taking the responsibility of enforcing the cattle by-law, which sometimes creates hard feelings.

It is hoped that Municipal Councils will do their part by passing the necessary by-laws under the "Ontario Tree Planting Act of 1883," and that a great stimulus will be given to the planting of shade trees and beautifying of our highways.

Other varieties of Shade Trees (including a number of kinds of Nut Trees) for sale.

Contracts entered into for planting Walnut and Chestnut Groves, and Vineyards. Growth guaranteed, if required, at reasonable prices.

NURSERIES, NEAR JORDAN.

RESIDENCE, 20 YATE ST., ST. CATHARINES.
